First Time Login on iPhone and 2FA Steps

Begin logging in with your existing username and password.

Our upgraded security settings will now require 2-step verification.

Each time you sign in to your account on an unrecognized device, we require your password and a verification code.

This update will add an extra layer of protection to your account, ensuring you have complete control over who can access your information.

Soo Co-op Credit Union will never ask you to share your verification code with us.

Choose how you wish to receive your code.

Authy and Authenticator app will require you to download additional apps to receive your codes. Please see the authentication options guide for more information.

Selecting Voice or Text Message allows you to receive your code by call or text. Message and data rates may apply.

In this example I have selected Voice or Text Message. You will be prompted to enter your desired contact number.

Choose to receive your code by text message or phone call, keeping in mind that landlines are only able to receive calls.

Enter your verification code you received from call or text.

You will receive a confirmation message when your verification is set up successfully.

Your 2-step verification was set up successfully

From now on, when prompted for a verification code upon sign in you can receive that code from a Phone call to this phone number.

Now you will create a passcode for your account on this device.

Confirm your passcode.

Finally, choose whether you would like to enable biometric ID.

You're all set! Welcome to your home screen!
